## OCTOBER MEETINGS

### BOARD MEETING

**DATE:** October 11, Monday

**TIME:** 7:00 p.m.

**PLACE:** Home of Jan Severtson

### REGULAR MEETING

**DATE:** October 18 Monday

**TIME:** 7:00 p.m.

**PLACE:** First Presbyterian Church 521  
Lakeside - Annex building

**PROGRAM:** Mike Bader, Executive  
Director of the Alliance for the Wild  
Rockies, will talk about the Northern  
Rockies Ecosystem Protection Act.

## AMERICAN BIRD CONSERVANCY APPLAUDS NEW PET TRESPASSING LAW

*EDITORS NOTE: Last year our Newsletter ran a series of articles on the "Cats Indoors! Campaign", a project of the American Bird Conservancy. The following is a news release on the new Montgomery County, MD pet ordinance, which ABC strongly supports*

Cat owners in Montgomery County, MD have a new incentive to keep their cats indoors, on a leash, or confined to their property. Under a new law, owners of all types of pets, including domestic cats, may not allow their pet to enter other private property without the property owner's permission. Violations of the new law could result in the issuance of a \$100 fine. Second offenses or offenses committed after a warning could increase the fine to \$500. In addition, private property owners legally have the right to humanely trap or capture trespassing animals and bring them to the County's animal shelter. Dogs and unaltered cats must be leashed when off their own property.

Linda Winter, director of American Bird Conservancy's (ABC) Cats Indoors! Campaign stated, "People write or call me every day wondering what they can do about their neighbor's cats in their yard. They are sick and tired of watching other people's cats kill birds at their feeders or birdbaths, defecate in their gardens, or create a health risk in their children's sandboxes. If owners of outdoor cats respected other people's property rights, this legislation would not be needed." The city of Newport News, Virginia is considering similar legislation.

*Continued on page 2*

# New Pet Trespassing Law

*Continued from page 1*

"ABC's Cats Indoors! Campaign seeks to educate cat owners and the general public that the nation's estimated 100 million free-roaming cats kill hundreds of millions of birds each year in the U.S.," said ABC president Dr. George Fenwick. "Outdoor cats often suffer and die prematurely, and can transmit diseases and parasites to people, such as cat-scratch fever, toxoplasmosis, and rabies. Montgomery County has set an excellent standard to promote responsible pet ownership that will help protect cats, wildlife and people. We encourage other counties and municipalities to follow their example," said Fenwick.

Campaign materials include a four-color brochure and poster, Keeping Cats Indoors Isn't Just For The Birds, an education kit with 13 fact sheets, and a new teacher's activity guide for grades K-6. One of the fact sheets is titled, What Can You Do About Your Neighbor's Cats In Your Yard? Campaign materials are also available on ABC's Web site at: [www.abcbirds.org](http://www.abcbirds.org).

"We encourage people to politely ask the cat's owner to control their cat. Besides just keeping the cat indoors, they can train the cat to go out on a leash, or build an outdoor enclosure or cat run. Cat-proof fencing is also available. We also have a fact sheet on how to make an outdoor cat acontented indoor pet," said Winter.

For a free brochure and an order form, call (202) 778-9666 or write: American Bird Conservancy, Cats Indoors! 1250 24<sup>th</sup> Street, NW, Suite 400, Washington, DC 20037.

## NIC CLASS - "BIRDING FOR LIFE"

This class is for beginning birders and covers such topics as optics, field guides, field identification, attracting birds to your yard with feeders and houses, identification by ear.

Instructor - Kris Buchler  
Class meets 4 times - Wednesday 7-9pm  
October 6-27  
Two field trips - Saturdays 9am-noon October 9  
9am-3pm October 23  
Call # 1626 Code RC 630-01 Call NIC to register. •

## OCTOBER FIELD TRIPS

### MICA BAY SURVEY

**DATE:** October 8 and 22 Friday

**TIME:** 9:00 a.m.

**MEET:** Fairmont Loop and Highway 95

**LEADER:** Shirley Sturts 664-5318

**ACTIVITY:** We spend about 3 hours twice a month counting all the birds we can find in the Mica Bay area. Beginner birders are welcome to join us.

### ROUND LAKE STATE PARK

**DATE:** October 9, Saturday

**TIME:** 8:00 a.m.

**MEET:** East side of Rosauer's Parking Lot

**LEADER:** Judy Waring 765-5378

**ACTIVITY:** For a pretty fall walk it's hard to beat Round Lake, south of Sandpoint. We will take the two-mile trail around the lake. Fall migration will have begun and Canadian birds will be heading our way to spend the winter in our relatively mild climate. We're going to be looking for Northern Shrike, Bohemian Warwing, Snow Bunting and American Pipit. Late warblers may be passing through as well as bluebirds. The drive home will be through the Hoodoo Valley where we will see what waterfowl we can find at Morton Slough. This will be an all day trip so bring your lunch.

### FERNAN LAKE - BROWN BAG BIRDING TRIP

**DATE:** October 12 Tuesday

**TIME:** 12:00 Noon to 1:00 p.m.

**MEET:** East End of Fernan Lake

**LEADER:** Shirley Sturts 664-5318

**ACTIVITY:** We will check the birds at the East End of the lake and then walk along Fernan Creek. We will be looking for late migrants, winter visitors and resident birds.

Continued on Page 4

## OBSERVATION POST

Observers: Janet Allen (JALL), Mark Andrews (MAND), Kris Buchler (KBUC), Janet Callen (JCAL), Kas Dumroese (KDUM), Bill Gundlach (BGUN), Ed Haglund (EHAG), Cynthia Langlitz (CLAN), Herb and Jan Severson (JSEV), Stephen Lindsay (SLIN), George Saylor (GSAY), Lynn Sheridan (LSHE), Shirley Sturts (SSTU), Susan Weller (SWEL)

RBA Rare Bird Alert for Northern Idaho-Eastern Washington-Northeastern Oregon Phone (208) 882-6195 or Internet-Web Site: <http://pimacc.pima.edu/~cwilliamson/index.html>

- Common Loon:** 1 Benewah Lake Aug. 29 (KDUM); 17 Pend Oreille Lake (Sandpoint to Hope) Sept. 4 (EHAG); 1 Pend Oreille Lake Sept. 19 (KBUC); 7+ (possibly as many as 30) Hope, Pend Oreille Lake Sept. 21 (JSEV)
- Pied-billed Grebe:** 1 Fernan Lake Sept. 28 (SSTU)
- Horned Grebe:** 2 Pend Oreille Lake Sept. 19 (KBUC)
- Red-necked Grebe:** 1+ Benewah Lake Aug. 29 (KDUM); 5 Pend Oreille Lake Sept. 19 (KBUC); 1+ Wolf Lodge Bay, CDA Lake Sept. 26 (SLIN)
- Western Grebe:** 9 Denton Slough, Pend Oreille Lake Sept. 19 (KBUC); 1+ Wolf Lodge Bay, CDA Lake Sept. 26 (SLIN)
- Double-crested Cormorant:** 5 Denton Slough, Pend Oreille Lake Sept. 19 (KBUC)
- Great Blue Heron:** 1 Mica Bay, Coeur d'Alene Lake Sept. 18 (GSAY)
- Black-Crowned Night-Heron:** 1 immature Fernan Lake (east end) Sept. 11 (MAND, SSTU, SLIN) - observed for the first time at the end of Aug. but not identified (MAND); 1 immature (probably same one) Fernan Lake (east end) Sept. 27 (SSTU)
- Wood Duck:** 1+ Fernan Lake Sept. 26 (SLIN) and 1 Sept. 27 (SSTU)
- Green-winged Teal:** 1+ Fernan Lake Sept. 26 (SLIN)
- Common Goldeneye:** 4 Wolf Lodge Bay, CDA Lake Sept. 26 (SLIN)
- Common Merganser:** 1 Wolf Lodge Bay, CDA Lake Sept. 26 (SLIN)
- Osprey:** 1+ Benewah Lake Aug. 29 (KDUM); 1 Fernan Lake Sept. 10 (LSHE)
- Bald Eagle:** 1 Armstrong Hill, CDA Sept. 13 (SSTU, KBUC); 1 Pearl Island, Pend Oreille Lake Sept. 19 (KBUC); 1 Hope, Pend Oreille Lake Sept. 21 (JSEV)
- Sharp-shinned Hawk:** 1 flew over 19<sup>th</sup> and Sherman Sept. 19 (SLIN)
- Gray Partridge:** 15 Rathdrum Prairie Sept. 27 (SLIN)
- Killdeer:** 3 Honeysuckle Beach (near), Hayden Lake Sept. 16 (LSHE); 5 KMC (Hospital) Lawn CDA Sept. 8 (GSAY)
- Baird's Sandpiper:** 14 Cataldo Slough Sept. 19 (SWEL)
- Least Sandpiper:** 2 Cataldo Slough Sept. 19 (SWEL)
- Great Horned Owl:** 1 Armstrong Hill CDA Sept. 28 (KBUC)
- Northern Pygmy-Owl:** 1 Hauser Lake
- Downy Woodpecker:** 1 Hauser Lake Sept. 18 (JALL)
- Northern Flicker:** 1 Fernan Lake Sept. 10 (LSHE); 5 Dalton Gardens Sept. 12 (JALL); 2 Hauser Lake Sept. 18 (JALL)
- Blue Jay:** 1 Coeur d'Alene (City) in yard every day Aug./Sept. (probably the one of the two that has been seen most of the summer along Mullan and Front Ave.) (BGUN)
- Steller's Jay:** 3 Hauser Lake Sept. 18 (JALL); 1 Fernan Lake Sept. 29 (SSTU)
- Horned Lark:** Dalton Gardens Sept. 10 (JALL)
- American Dipper:** 3 east of Bumblebee (CDA National Forest) Sept. 7 (JCAL)
- Mountain Blue Bird:** 4 Rathdrum Prairie Sept. 15 (CLAN)
- Varied Thrush:** 1 Hauser Lake Sept. 18 (JALL)
- American Pipit:** 1 Rathdrum Prairie Sept. 27 (SLIN)
- Cedar Waxwing:** 8 Pennsylvania and 21<sup>st</sup> Street CDA Sept. 19 (LSHE)
- Western Meadowlark:** 1 Rathdrum Prairie Sept. 27 (SLIN)
- Brewer's Blackbird:** 6 NIC Beach Sept. 3 (LSHE)
- Spotted Towhee:** 1 Armstrong Hill CDA (KBUC)
- Savannah Sparrow:** 3 Rathdrum Prairie Sept. 20 (CLAN); in small groups Rathdrum Prairie Sept. 27 (SLIN)
- White-crowned Sparrow:** 1 feeder N. 16<sup>th</sup> CDA (LSHE); 5 Mica Bay, CDA Lake Sept. 18 (GSAY)
- Song Sparrow:** 1 Dalton Gardens Sept. 11 (JALL); 1+ at feeder every day N. 16<sup>th</sup> CDA (LSHE)

### MICA BAY SURVEY

Observers: Shirley Sturts , Kris Buchler, Janet Allen, Nancy Aley, Lynn Sheridan, Jerry Hanson, Judy Waring, Ken Epper

SPECIES	Aug. 26	Sept. 10	Sept. 27
Red-necked Grebe	4	6	4
Pied-billed Grebe	-	8	4

Evening Grosbeak	6	-	-

## OCTOBER FIELD TRIPS

*Continued from page 2*

### PEND OREILLE LAKE

**DATE:** October 23, Saturday

**TIME:** 8:00 a.m.

**MEET:** East side of Rosauer's Parking Lot

**LEADER:** Shirley Sturts 664-5318

**ACTIVITY:** We will bird in Sandpoint City Park, Denton Slough, Driftwood Yard and the Henderson Ranch WMA near Clark Fork. Bring a lunch. We may stop for dinner or pizza in Sandpoint depending on time.

## Field Trip to Roman Nose Lakes

*Bill Gundlach*

Saturday, September 11 was a beautiful day for a drive to Bonners Ferry and then west up the Snow Creek Road into the Selkirk Mountains to Roman Nose Lake. It was crisp and cool at 6,000 feet and great for a picnic at Roman Nose Lake No. 1. The group then hiked into beautiful Lake No. 2 which sits in a spectacular glacial cirque, below Roman Nose Peak with its old lookout tower. It was at Lake No. 2 we were treated to an aerobatics display by two Red-tailed Hawks.

Birds encountered on this trip included: Northern Flicker (4), Golden-crowned Kinglet (4), Olive-sided Flycatcher (2), Red-breasted Nuthatch (2), Dark-eyed Junco (6), Gray Jay (7), Red-tailed Hawk (3), Sharp-shinned Hawk (1), Mountain Chickadee (1), White-crowned Sparrow (1), Chipping Sparrow (2), Cassin's Finch (2), Common Raven (1), Cooper's Hawk (1), American Pipit (20+). The American Pipit flock was seen near the road close to the lake and was a new species for several in the group,

Trip participants included: Kris Buchler, Janet Callen, Joan Gundlach, Lisa Hardy, Cynthia Langlitz, Jan and Herb Severson, Lynn Sheridan and Bill Gundlach, leader. We all enjoyed pizza at the Second Avenue Pizza in Sandpoint on the way home. \*

## HEYBURN STATE PARK FIELD TRIP

*Bill Gundlach*

This was a combined field trip with Palouse Audubon from Moscow. Lisa Hardy, Lynn Sheridan and myself from the Coeur d'Alene Chapter met Charles Swift and four others from the Palouse Chapter at Heyburn State Park to bird along Plummer Creek, Chatcolet Lake and Benewah Lake in Benewah County. The weather was clear and very warm and waterfowl were limited except for American Coot. After birding in five areas the group was able to observe and/or hear the following birds: Northern Flicker, Red-winged Blackbird, Gray Catbird, Northern Harrier, Dark-eyed Junco, Black-capped Chickadee, Common Raven, Song Sparrow, Red Crossbill, Cedar Waxwing, Golden-crowned Kinglet, Common Yellowthroat, Osprey, Red-necked Grebe, Pied-billed Grebe, Pygmy Nuthatch, barn Swallow, Belted Kingfisher, Canada Goose American Coot, Ruddy Duck, Common Loon, Mallard, Redhead, Great Blue Heron, Western Grebe, Red-naped sapsucker, Winter Wren, American Crow, Lincoln Sparrow and Pileated Woodpecker.

The American coot were in large rafts totaling 2000+/- on Chatcolet Lake. At Benewah Lake our group was able to observe close-up the harvesting of wild rice by St. Maries Wild Rice Company with their airboat - quite interesting. Wild rice is harvested in September, and involves a lot of processing before the cleaned rice is packaged for sale. •

## COUGAR BAY FIELD TRIP

*Bill Gundlach*

At noon on Tuesday, September 14, a group of 6 people walked one of the new trails at the Nature Conservancy area in Cougar Bay on Coeur d'Alene Lake. The weather was very warm and there wasn't much bird activity. However, we did observe Red-breasted Nuthatch, Northern Flicker, Song Sparrow and possible Bald Eagle feeding on the bay shore a long way off. On the trail back near the start, a cougar print was found in the hardened mud. Participants included Kathy Erickson, Jeanette Hill, Peggy Schnell, Lynn Sheridan, Shirley Sturts and Bill Gundlach, leader. •

## BUZZZZZZZZZZZ - BEE- YARD APIARY FIELD TRIP

*Kris Buchler*

Howard Winkelmann arranged a wonderful field trip for Audubon Members on September 12th. Notice was short as conditions were hard to predict this summer and Howard wanted participants to have a safe and informative trip. Those attending were Cynthia Langlitz, Alice Hardison, Anna and Ron Goodwin and their son and Kris Buchler.

We were treated to an "up close and Personal" look at a working Hive while wearing appropriate clothing and "headnets" provided by Howard. Owner and beekeeper, Ben, smoked the hive and wore a full bodysuit. The bees were amazingly calm while he disassembled the hive and Howard explained the intricacies of bee behavior. We also learned about the economics of bee keeping and the problems with parasites. This was a rare treat for non-bee keepers. THANK YOU HOWARD AND BEN! •

### FIELD TRIP INFORMATION

Monthly field trips will be held the second Saturday of each month. There could also be special field trips in addition to the regular scheduled field trips - check your newsletter.

Brown Bag trips will be held the second Tuesday of each month between Noon and 1:00 p.m.

Mica Bay Survey trips are held twice a month - check your newsletter for dates and time.

Special weekend field trips will be announced.

Next field trip November 13 Thompson Lake  
Leader - Bill Gundlach 667-3339

Volunteers are needed to lead field trips: Call: Bill Gundlach 667-3339

# WOMEN OF DISTINCTION 1999 AWARDS

*Kris Buchler*

In October the board members of the Coeur d'Alene Audubon Society decided to nominate Watchable Wildlife Specialist, Beth Paragamian, for an award from The Women's Forum. She won in the category of Education. Beth was one of twelve women honored at The Women of Distinction Awards Banquet held September 16th at Cavanaugh's Templin's Resort. She received her award from North Idaho College/Lewis-Clark State College/University of Idaho, corporate sponsors of the Education Award.

Beth is well known in the community for her environmental and natural science programs offered to schools, scouts, civic organizations and numerous local happenings. What people don't see is all she does behind the scenes such as helping other educators, preparing interpretive displays and pamphlets, attending various seminars around the country and making traveling trunks and other resources available to teachers. These are just a few of the jobs she does representing the U.S. Forest Service, Bureau of Land Management and Idaho Fish and Game. •

## TOM ROGERS 1914-1999

*Shirley Sturts*

I am very sad today. I just learned that my mentor, Tom Rogers, passed away. Tom had a great influence on my life. I got to know Tom when I joined the Spokane Audubon Society in the 1960's. I birded with him on many Christmas Bird Counts both in Spokane Valley and the Indian Mountain CBC. He taught me how to recognize bird calls while doing Breeding Bird Surveys for the U.S. Fish and Wildlife Service and on hikes through his beloved Dishman Hills. Tom shared his knowledge of the natural world with others and me over his lifetime. I will treasure the many memories I have of these shared times.

The following is a reprint from *Lights and Shadows* September 1999, the newsletter of the Dishman Hills Natural Area Association:

"Tom Rogers is gone, He passed away at the age of 85 on September 23, the first full day of autumn. Tom was a

founder, past president, and the guiding light of the Dishman Hills Association. His devotion to saving the Dishman Hills was an inspiration for over three decades for citizens working to preserve our Natural Heritage.

In a day and age when our society seems to be running short of meaningful role models, Tom Rogers stands out as a real 24-carat hero. He was a champion of education and science, devoted to public service, and had a burning desire to make the future better for all of us. He never prized materialism, and always avoided attention. He had a passion for nature, a talent for teaching, and an enthusiasm that was inspirational. Tom could see what was happening to the natural world around him, the bulldozer of humanity destroying the environment. It was obvious to those around him that it caused him personal pain to see a forest fall to the ribbons of asphalt and pools of concrete covering our countrysides. His rare moments of anger were often tied to a frustration over our stupidity in cashing in natural places for urban expansion.

One of Tom's favorite quotes was by A. Morgan, 'What we save in the next few years is all that will ever be saved' By these words he lived, with a vision of a community that cared for its natural areas. He realized that nature needs a protected sanctuary to survive. Tom was not just a man of strong beliefs, but a man of action who devoted much of his life to saving his special place, the Dishman Hills. He took his stand there, a place of awesome natural beauty, and a place he felt worth saving for future generations.

Tom, we will miss you, your excitement on spotting a rare butterfly, your willingness to tour a class of kids through a wonderland of biodiversity, your pointed comments to county commissioners planning more development, and your humorous, friendly nature that revealed how much you really liked people despite our destructive tendencies. Not all of Tom Rogers is gone. Take a hike in the Hills and you will find some of him there. His vision and passion to save the natural world was very contagious and will live on in many of us who had the honor to know him. •

<p><b>THE TOM ROGERS MEMORIAL FUND</b></p> <p>Tom's dream was a new nature area on Tower Mt.. We have started but still owe 93K. Share Tom's dream and do what you can. All donations are tax deductible and receipts will be provided for donations \$250.00 and up on request</p> <p style="text-align: center;">Send donations to: DHNAA E. 10820 Maxwell Ave. Spokane, WA 99206</p>

# PROJECT FEEDER WATCH

Project feeder watch is a joint project of the Cornell Laboratory of Ornithology, the National Audubon Society, Bird Studies Canada, and the Canadian Nature Federation.

Project Feeder Watch is for anyone with a bird feeder. Whether you are an amateur or a professional birder, you will enjoy monitoring the birds that visit your backyard bird feeder. And the data you collect is put to good use for bird conservation.

## WHAT DO FEEDER WATCHERS DO?

- ❖ Watch birds for Project Feeder Watch once every two weeks from November through March.
- ❖ Count the kinds and numbers of birds at feeders. Spend as little or as much time as you want.
- ❖ Record the information on Project Feeder Watch data forms.
- ❖ Send the forms to the Cornell Lab of Ornithology for analysis in the spring.

## WHAT HAVE FEEDER WATCHERS DISCOVERED?

- ❖ Which feeder bird populations are expanding or declining.
- ❖ Which feeder bird populations are remaining stable.
- ❖ Which feeder birds are most widespread.
- ❖ Where the wandering finches are year after year.
- ❖ How flock sizes of certain species may differ according to latitude.
- ❖ And much more.

## WHAT DO FEEDER WATCHERS RECEIVE?

- ❖ A Research Kit with an instruction booklet, data form booklet, bird identification poster, and bird-watching days calendar.
- ❖ Quarterly issues of the newsletter, *Bird-Scope*, full of the latest Project Feeder Watch results, bird-related news, answers to your bird questions, and more. Through *Birdscope* you'll also learn about other citizen-science projects.

## HOW CAN YOU BECOME A FEEDER WATCHER?

- ❖ The easiest way is to call our toll-free number 1-800-843-BIRD (2473) and sign up by credit card.
- ❖ Or, send a check for \$15.00 (\$12.00 for members) made payable to Project Feeder Watch, Cornell Lab of Ornithology, 159 Sapsucker Woods Road, Ithaca, NY 14850.
- ❖ Fax your order and credit card number to (607) 254-2435
- ❖ If you plan to use Project Feeder Watch in an educational setting. Please note grade and type (home school, Scouts, 4-H, formal school)

## WOULD YOU LIKE TO LEARN MORE?

- ❖ Visit our web site, <http://birds.cornell.edu>
